

Are you a theatre student looking for Summer Work?

Audition for 90 Professional Theatres at SETC!

Each March SETC hosts combined Professional Auditions for approximately 90 professional hiring theatres as part of the annual convention. **SETC requires that all pre-professional actors (students and adults) be screened on the state level before being accepted to the auditions in March.**

Actors currently enrolled in school, whether or not they have earned a salary acting, **must attend** the state screening auditions. Auditionees **must** register for the state screenings and must apply **online** for the SETC Auditions.

Each state in SETC's 10 State Region holds preliminary auditions in the Fall in order to send the most qualified actors to participate in the regional auditions at the annual convention in the spring.

All the information you need can be found at:
